## SKILLS

Java | JavaScript | TypeScript | C | SQL | OOPs | WCD | Spring | Spring Boot | Spring MVC | ORM | Hibernate | RDBMS | MongoDB | React.js | Node.js | Next.js | jQuery | Redux | ES6+ | HTML5 | CSS3 | Sass | Bootstrap | Git | GitHub | Web Development | App Development | Frontend | REST API | API Integration .

Effective Communication English , Hindi, Marathi - ***All professional  proficiency.***

## PROJECTS

### Online Shopping System

*( SpringBoot, React.js, Redux, Spring MVC, MySQL, HIbernate )*                    *Present*

- Designed the database for the application and simplified the database operations using ORM.
- Designed the REST API using Spring MVC to handle the communication between frontend and server.
- Built the responsive and interactive UI using React.js .
- Handled navigation using React Router throughout the application.
- Managed the state of the application using React Redux.
- Integrated PayPal for secure, seamless, and efficient online payment processing.

### Matrimony Web Application

*( Next.js, React, Redux, Sass, MongoDB )*

- Built the UI using Next.js to achieve server side rendering and to neglect external dependencies for routing.
- Managed the state of the application using redux.
- Implemented user authentication and authorization using NextAuth.js.
- Integrated Stripe for secure, seamless, and efficient online payment processing.
- Using Sockets for real time communication between users.
- Stored the user information in the form of collection.

### Employee Management System

*( Java, Servlets, JSP's,  Hibernate, OracleDB )*

## CERTIFICATIONS

### Seed Infotech

*Full Stack Java Development*                    *06.2023 - Present*

### Naresh IT

*Frontend Development ( React.js )*                    *01.2022 - 05.2022*

## EDUCATION

### Pune University

*Bachelor Of Engineering*                    *08.2017 - 06.2022*
